SUMMARY

Frontend Engineer with 3+ years of experience building scalable web applications using React, Vue.js, and MERN stack. Led cross-functional teams to deliver high-impact features like one-click payment flows and optimized UIs. Passionate about mentoring junior developers and advocating for best practices in component-driven design.

WORK EXPERIENCE

SDE-II FrontEnd, Hopstack

04/2024 – present | Bengaluru, India

- **Led Frontend Development:** Managed UI for Hopstack's core platform, optimizing warehouse workflows. Built advanced filtering and streamlined purchase order flows, cutting processing time by 35%.
- **Improved Component Management:** Introduced Storybook, standardizing UI components and reducing development time by 20%.
- **Optimized Performance:** Reduced page load times by 40% via API optimizations and lazy-loading. Built a high-performing rate shopping page, boosting user satisfaction by 25%.
- **Cross-Platform Contributions:** Delivered frontend solutions for both Hopstack's main platform and Ignite (FBA customers), ensuring seamless user experiences.

SDE-I FrontEnd, Junglee Games ⧉

11/2021 – 04/2024 | Bengaluru, India

- **Optimized Payment Flow:** Implemented one-click Paytm checkout with RBI-compliant tokenization, enhancing transaction speed and security.
- **Led Admin Panel Development:** Built and managed Mini Games & Rumble Admin Panels using React and Redux, streamlining game and feature management.
- **Unified Management System:** Developed a centralized workflow solution with Vue.js and Quasar, improving operations across Junglee Rummy and Howzat.
- **Enhanced Deposit Service:** Fixed critical bugs and added key features, ensuring seamless transactions and on-time feature delivery.

AWARDS & RECOGNITIONS

Junglee Spot Award for contributions to multiple frontend projects at Junglee Games; received a bonus at Hopstack for early completion of the FBA project.

EDUCATION

B.Tech In Mechanical Engineering, Dr.Babasaheb Ambedkar Technological University

2017 – 2021 | Lonere

COURSES

Pesto Plus (Upskilling Cohort Program):, Pesto Tech
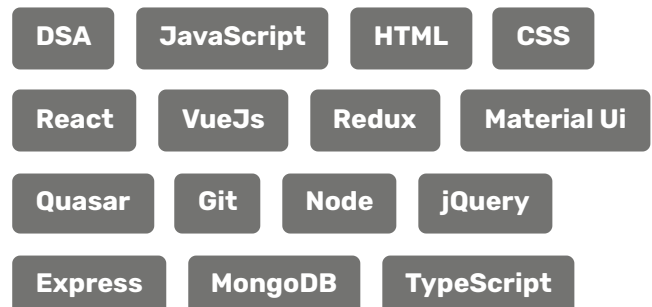

11/2022 – 10/2023 | Delhi, India

Completed 40-week advanced full-stack development and product engineering program with direct mentorship, and live project experience.

Full Stack Web Development (Full Time), Masai School

03/2021 – 10/2021 | Bengaluru, India

Learned MERN stack, soft skills and collaborated on multiple projects under direct mentorship.

TECHNICAL SKILLS

DSA   JavaScript   HTML   CSS

React   VueJs   Redux   Material Ui

Quasar   Git   Node   jQuery

Express   MongoDB   TypeScript

PROJECTS

Valet-Expense Tracker ⧉

05/2023 – 06/2023

- Built a full-stack expense tracking platform using **MERN stack**, enabling seamless finance management.
- Led a **3-member team**, handling both frontend and backend.
- Integrated real-time budget analytics and secure authentication.

Personal Projects (MERN Stack): ⧉

- Developed and deployed **full-stack web apps**, showcasing expertise in **React, Node.js, Express, MongoDB**.
- Explored diverse domains, demonstrating adaptability.
